The following is an examiner's statement of reasons for allowance:

Claims 1, 3, 5-6, 13-15, 17-18, 27-28, 31-34 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps in etching the wiring using an atmospheric-pressure plasma device having a linear plasma generator using the resist mask as a mask by generating plasma between a first electrode of the linear plasma generator and a second electrode surrounding the first electrode of the linear plasma generator, wherein at least the first electrode has a sheet-like shape or wherein the solution ejector has three ejection ports forming a triangle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
